Art. No.

BO 60 232 11

### Suction Positioning Device

Handy suction device made of plastic, with exchangeable pads of different diameters (ø 19, 24 & 30 mm) · suitable for all materials with smooth, flat, airtight surfaces such as glass, plastic, metal, coated wood, marble, etc.

Art. No.

BO 53 120 50

## Lever-Activated Suction Lifters

Lever-activated suction lifters provide a solution for nearly any handling problem you might have. When activating the lever, the hollow space between the transporting material and the suction pad increases, creating a vacuum. The VERIBOR blue line series deserves special attention. These suction lifters feature a combination of high quality design with a robust aluminium body, displaying excellent ergonomics and modern design. This series is also available as a set in a practical case.

### VERIBOR blue line Suction Lifter, 3 suction cups

For heavy loads · tested by TÜV (German Technical Controlling Institution) and safety certified with the GS sign · suitable for all materials with smooth, air-tight surfaces such as glass, plastic, metal, coated wood, marble, etc.

Spare suction discs are supplied complete with suction pad, lever, bolt, spring and pressure plate.

Suction disc: ø 120 mm
